MEMORANDUM FOR: Acting Deputy Director for Intelligence

FROM : Special Assistant to the Director for Interdepartmental Affairs

SUBJECT : Support for U.S. Policy re Credits to USSR

1. On 25 March 1982 the Director received requests from Treasury, Commerce, and Defense for analytical support for U.S. policy deliberations regarding government-guaranteed credits to the USSR following the Buckley mission.

2. In a subsequent discussion with Norm Bailey, [] confirmed that Treasury has the lead in developing U.S. policy on credits and that the analysis should be conducted along the lines suggested by Treasury (see attached TOR). As a result, George and I discussed this matter with the Director, who requested that George organize CIA's contribution per Treasury's requirements.

4. Please provide George the support necessary to meet our obligation.
